

## Kette für Kettensäge

### Sägeketten für den Einsatz auf Benzin- und Elektromotorkettensägen

- Mit Sicherheitsglied für eine niedrigere Rückschlagsneigung
- Optimale Schmierung für eine längere Lebensdauer durch Centri-Lube™ System
- Speziell gehärtet für beste Schneidergebnisse und eine lange Lebensdauer

| Art.-Nr.                   | 0993 702 113                                                                                                                                                                        | 0993 702 114                                                                                                                                                                                               | 0993 702 126                                                                                                                                                                               | 0993 702 117                                                                                                                                                                                                     | 0993 702 112                                                                    | 0993 702 116                                                                                                                                                                                                         |
